Re: George Washington Bridge Reconstruction

Mr. O'Toole,

I am writing on behalf of my constituents in Hudson County and in support of the widening of bicycle paths on the George Washington Bridge Reconstruction.

The bridge is widely used by pedestrians and cyclist alike. Taking the additional step to widen the path will ensure the safety of many of the bridge's users. As population continues to increase, alternative transportation methods become imperative. Many commuters have opted for bicycle as their mode of transportation. Thus, accommodating these needs for future use of the George Washington Bridge is of utmost importance.

I thank you in advance for your assistance regarding this issue. Please do not hesitate to contact my office at 201-721-5263 should you need any further information.

Respectfully,

BRIAN P. STACK
Senator 33rd Legislative District
